Draw the Angles 2

OnlineProtractors.com

Name: _____ Date: _____

Draw each angle counter-clockwise from the given ray. For angles over 180°, draw 360° minus the angle on the other side.

Print at 100% ("Actual size") so the angles stay exact.

---

a)

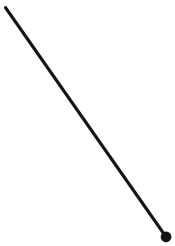

Draw a 105° angle

b)

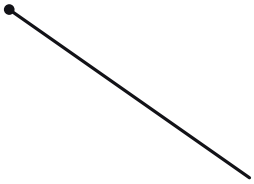

Draw a 260° angle

c)

Draw a 310° angle

d)

Draw a 30° angle

e)

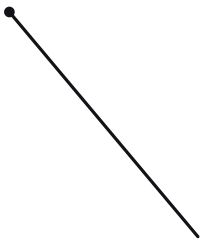

Draw a 300° angle

f)

Draw a 95° angle

g)

Draw a 230° angle

h)

Draw a 290° angle

Draw the Angles 2 — Answer Key

OnlineProtractors.com

Answers for "Draw the Angles 2" (Advanced). Allow about ±2° when marking measured or drawn angles.

Draw each angle counter-clockwise from the given ray. For angles over 180°, draw 360° minus the angle on the other side.

Print at 100% ("Actual size") so the angles stay exact.

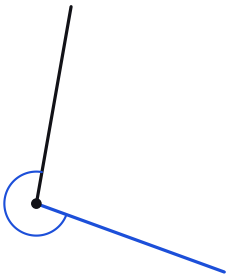

---
